

RELEASE NOTES

Updated PPS for G-Series P25 Voice Pagers (G2/G3/G4/G5)

New PPS Version: 4.0 (V0.4.0.44)

Date: 02/06/2026

New Features:

- Added support for programming G-Series+ Voice Pagers

Bug/Issue Fixes:

- Resolved an issue with the Call Alert function
- Corrected Address entry when “ContactID = 999999” and “SignalingType = 9” in tabContacts
- Fixed table content errors that occurred when saving after editing the P25T Alert SUID table a second time
- Set the default culture for all threads to fix issues caused by the Türkiye symbol
- Resolved a crash that could occur when performing operations within the Grouping List resource window
- Minor fixes and internal updates to improve overall operation
