

RELEASE NOTES

Updated Firmware & PPS for G-Series P25 Voice Pagers (G2,G3,G4,G5)

Firmware Version: V1.31

PPS Version: V03.16.21

Device software (V1.31) and programming software (V03.16.21) includes numerous bug fixes to correct issues and optimize performance. An overview of the changes included in this release are outlined below.

Bug/Issue Fixes:

- Fixed problems with conventional VHF QCII alerting
- Fixed issue causing P25C QCII Stacked Paging Decode Failure
- Fixed issue where TGID hold timer would only count down when the pager screen is active
- Fixed issue that caused pager to crash when changing knob positions in some zones
- Fixed issue where pager would not connect to PPS while screen off & would not charge until the screen turned on
- Fixed issue where pager would randomly reset when programmed with a large programming file
- Fixed issue in PPS that caused software to shut down when attempting to write a profile to pager
- Fixed issue when a P25 TG is received, and voice transmission is over, the squelch that opened speaker kept speaker on with a hissing sound
- Fixed issue causing pager to lock up while navigating the settings menu
- Fixed lost audio issues, where received message audio would not play through speaker and recorded messages would not play back
- Fixed issue of pager receiving messages while powered off and charging (Green LED flashes and screen lights up showing "charging full")
- Fixed issue where pager decoded while powered off in the Amp Charger
- Fixed issue where during off duty state the voice record would continue for 10 minutes
- Fixed issue when 2-tone is sent from P25 Conventional channel on console, after tones end during hang time a different TGID and ID is seen on the screen and the pager reset
- Various other under the hood fixes and improvements to optimize performance

PPS Changes/ Feature Modifications:

- Added "Factory Setting" function that allows user to reset pager to original factory settings
- Added new Radio Reference import process (for Radio Reference premium members)
